# STORY & CHARACTERS

## IT WAS A LONG, LONG, TIME AGO—

Even before the Mana Goddess was born.

A great witch from a realm yet unknown brought darkness to the world.  
Anise was her name.

The odious witch was defeated by the guardians of the great tree...

But legend tells that her darkness and curse seeped through realms and spread over to many other worlds.

And yet another legend has it—

That when the world was still covered in darkness—

The Mana Goddess used the Sword of Mana to defeat the benevodons that would lead the world to doom, and seal them into eight stones...

This is how the darkness subsided and the world was created.

After completing her creation, the Mana Goddess turned herself into a large, wizened tree. It is told that the Mana Tree and the sword continue to watch the world from the forbidden Sanctuary.

Time has passed—

Valsena, the kingdom of green fields

Ferolia, the kingdom of Beastmen

Altens, the kingdom of sorcery

Wendel, the holy capital

Laurent, the aerial fortress

Nevarl, the fortress in the sand

The nations of the world were shrouded in a peaceful but fleeting slumber...

## ROGET

A young man in the Peddan military, Roget is an excellent swordsman in combat. Nothing is known about his family or background. He is good-natured and has a strong sense of justice, but beneath this surface lies a sad and lonely soul.

## YURCHAE

As captain of the Peddan reconnaissance crew to Ferolia, Yurchael possesses a calm and sharp mind. Most have a hard time reading into what he is really thinking, but he is unyielding in his convictions.

### QUCAS

Formerly a wandering mercenary, Qucas has spent his last two years in Pedda. A good friend of Roger's, he is rough around the edges, but still gets the job done...as long as he gets paid.

### GEMIÈRÈ

The niece of Pedda's chancellor, Gemièrè is usually taciturn, but quick to anger and always holds a grudge. Among the ranks, she is secretly referred to as "the landmine with legs."

### D'KELLI

The last survivor of a dying race that could tame wild beasts of the jungle, D'Kelli is a child who suffers from her own naiveté, but manages to show occasional moments of brilliance.

### CELESTAN

An officer in the Peddan military, Celestan is aloof but faithfully carries out orders. He has known both Yurchael and Baxilios for a long time.

### INATH

The youthful and carefree king of Pedda, Inath appears to take a childlike delight in war and death. He seems to have known Roget since long ago.

### BAXILIOS

Born from a long line of generals, Baxilios is the young and charismatic female commander of the Peddan military.

## SUMMONABLE UNITS

SUMMONABLE UNITS ARE PRIMARILY MONSTERS WHICH YOU CAN SUMMON FROM YOUR CARRIER. THERE ARE SIX TYPES OF SUMMONABLE UNITS, FOUR OF WHICH ARE COMBAT UNITS. THE DIAGRAM BELOW ILLUSTRATES THE POWER BALANCE BETWEEN THE FOUR COMBAT UNITS.

### COMBAT UNITS

### GATHERER UNITS

Gatherer units are used for gathering resources. Although lacking in combat skills, your ability to build facilities, summon units, and ultimately win the battle, depends on them.

### SPECIAL UNITS

Some units have specialized abilities, such as spying or a high level of attack. Carriers can be categorized as a special unit. Special units are immune to status ailments.

\* There are many species within the same type of unit. More species will become summonable as the game progresses.

### CRITICAL ATTACKS

Summoned units may deal critical attacks under certain conditions. The rate of critical attacks will vary when a leader unit (P.28) with a specific battle skill is within a 5-square radius.

## LEADER UNITS

CHARACTERS THAT ARE INVOLVED IN THE STORY ARE CLASSIFIED AS LEADER UNITS. LEADER UNITS HAVE A DIRECT IMPACT ON THE CRITERIA FOR VICTORY OR DEFEAT.

## FEATURES OF LEADER UNITS

### STANDBY SKILLS

A leader unit's standby skills are applied when the unit is not on the battlefield. Standby skills primarily influence the carrier, such as its movement speed and the speed of summoning units.

### USING MAGIC

When a leader is equipped with a spirit, you can touch the unit followed by  to use magic. The type of magic you can use depends on the combination of the spirit and character.

When a leader unit is equipped with a spirit, a spirit icon appears above the unit's head.

### METHOD AND RANGE ATTACKS

Each leader unit has a different method and range of attack. When the attack range is "1", the unit's attack can reach the "1" square; when the range is "3", the attack can reach the "3" squares. Yurchael's attacks can damage only one enemy within range.

## ESTABLISHING DS WIRELESS COMMUNICATION (DS WIRELESS LINK)

THIS SECTION EXPLAINS HOW TO WIRELESS PLAY.

### WHAT YOU WILL NEED

- Nintendo DS systems \_\_\_\_\_ 2
- Heroes of Mana DS Game Cards \_\_\_\_\_ 2

Never activate this mode in areas where wireless communications are prohibited (such as on airplanes, in hospitals, on trains, or on buses).
- ☐ The  displayed on screen while wireless communications are in operation indicates the signal strength of the wireless signal. The icon has four modes depending on the signal strength, as shown below. The stronger the signal is, the more stable the wireless communications will be.

				
No. of Bars	0	1	2	3
Strength	Weaker ← → Stronger			

When the wireless communications mode is active, the power light will flash at a different speed.

- ☐ For the best wireless communications performance, please note the following:
  - All DS systems should be within 30 feet of each other, or at a distance where the signal strength icon shows two or more bars.
  - The DS systems should face each other as directly as possible.
  - Avoid having people or other obstructions between the DS systems.
  - Avoid interference from other devices. If communication seems to be affected by other devices (wireless LAN, microwave ovens, cordless devices, computers), move to another location or turn off the interfering device.

## ESTABLISHING DS WIRELESS COMMUNICATION (DS WIRELESS LINK)

THIS SECTION EXPLAINS LOCAL WIRELESS PLAY.

### WHAT YOU WILL NEED

- Nintendo DS systems \_\_\_\_\_ 2
- Heroes of Mana DS Game Cards \_\_\_\_\_ 2

#### STEPS

1. Make sure that all DS systems are turned off, then insert a Heroes of Mana DS Game Card into each system.
2. Turn on the power for all the systems. The DS menu screen will appear.
3. Touch the "Heroes of Mana" panel.
4. Follow the instructions on page 36.

## WIRELESS COMMUNICATION GUIDELINES

Please note the following points regarding the wireless communications:

- ☐ The  displayed on the DS Menu screen or the game menu is the DS Wireless Icon. Choosing a menu option with a DS Wireless Icon activates the wireless communications mode. Never activate this mode in areas where wireless communications are prohibited (such as on airplanes, in hospitals, on trains, or on buses).
- ☐ The  displayed on screen while wireless communications are in operation indicates the signal strength of the wireless signal. The icon has four modes depending on the signal strength, as shown below. The stronger the signal is, the more stable the wireless communications will be.

				
No. of Bars	0	1	2	3
Strength	Weaker ← → Stronger			

When the wireless communications mode is active, the power light will flash at a different speed.

- ☐ For the best wireless communications performance, please note the following:
  - All DS systems should be within 30 feet of each other, or at a distance where the signal strength icon shows two or more bars.
  - The DS systems should face each other as directly as possible.
  - Avoid having people or other obstructions between the DS systems.
  - Avoid interference from other devices. If communication seems to be affected by other devices (wireless LAN, microwave ovens, cordless devices, computers), move to another location or turn off the interfering device.

## MULTI-CARD PLAY

YOU CAN USE THE DS WIRELESS LINK TO ENGAGE IN ONE-ON-ONE BATTLES WITH A FRIEND. PLEASE READ THROUGH P.34-35 TO ESTABLISH THE LINK FOR LOCAL WIRELESS PLAY.

## GETTING STARTED

From the main menu, select “Multi-Card Play,” and then select a file to load to proceed to the opponent search screen.

### SEARCH FOR OPPONENT (HOST)

If you are hosting a battle, touch “Search” to begin searching for an opponent. When you receive a challenge, touch “Yes” to accept and proceed to battle settings.

### SEARCH FOR OPPONENT (GUEST)

If you want to challenge a host to a battle, touch  near the name of the host you would like to challenge.

When the host accepts your challenge, you will proceed to the Number of Spirits screen (P.39).

## BATTLE SETTINGS

Once you have found your opponent, the host must determine the settings for the battle, from selecting a map to selecting summonable units.

### SELECT MAP

First, select the battle map and touch “Accept.” Each map has its own characteristics, and differs in size and number of resources.

## SELECT TIME LIMIT

Next, select the time limit from "**No limit**," "**10 minutes**," "**20 minutes**," or "**30 minutes**."

## SELECT RULES

Select the criterion for victory.

## SELECT UNITS

Select the summonable units. The player with "**Roget's units**" can summon Roget's units; the player with "**Peddian units**" can summon enemy units.

## SELECT NUMBER OF SPIRITS

## ENDING MULTI-CARD PLAY
